**AMEDEO AIR FOUR PLUS LIMITED (the “Company”)**  
(LSE: AA4, LEI: 21380056PDNOTWERG107)  
**Factsheet & Notice of Investor Call**

The Company announces that its factsheet for the period to 30 June 2023 is now available on its website at <http://www.aa4plus.gg>. An extract from the Chairman’s statement within the factsheet is reproduced below.

Demand for flying remains strong, especially for short haul travel, and airlines are generating good profits. Long haul travel remains slightly below its peak, depending on the route, and whilst many airlines have been able to repay the considerable debt incurred during Covid, rising interest rates, inflation and rising oil prices remain concerns, along with the capacity constraints caused by new aircraft delays and maintenance capacity shortages.

There is much focus on the steady return to service of the Airbus A380. Its future is dependent on Emirates and those who follow the pronouncements of Sir Tim Clark will be in no doubt that he is very concerned that the aircraft he ordered to replace the A380 are not arriving on time, or even at all, with specific concerns surrounding the B777-X programme.

Amedeo has looked into the reported wing spar issue for certain aircraft stored in high temperature environments and will make sure that ours are inspected and treated appropriately. We know there is a repair for this issue and we are not concerned for our aircraft.

Please note that after much effort from Amedeo and some of the directors, there is a new website [www.aa4plus.gg](http://www.aa4plus.gg)

**Notice of Investor Call**
